

SHelC 2021

Smart Healthcare International Conference

Troyes, France, December 9 - 10, 2021

Organized on the behalf on the South-Champagne Hospital (HCS) and the University of Technology of Troyes (UTT), in collaboration with the European Association of Hospital Managers (EAHM-AEDH-EVKM)

We are pleased to announce our next conference to be held in Troyes, France, December 9 – 10, 2021.

The spotlight of this event will be the recent trends on smart and digital health, gathering scientists as well as experts actively involved in transformation of modern Medicine.

Main topics include, but are not limited to, the following areas:

- Use of technology and robots for everyday care;
- Improvement of medical care through artificial intelligence;
- Data and optimization for hospital management;
- Artificial intelligence at the service of patient.

Submission

Scientists and experts of digital health transition are welcome. This event is a great opportunity to exchange on modern techniques of digital doctors, nurses, and administrators. Authors are welcome to submit papers in two formats.

- Extended abstracts and work-in-progress papers with a maximum of 2 pages.
- Short papers which present original research contributions of a maximum of 8 pages.

Papers in both formats should report original research of theoretical or applied nature and should be submitted via the online submission system EasyChair (<https://easychair.org/conferences/?conf=sheic2021>) by the submission deadline. All submitted papers will be assigned to at least two referees and will be examined based on their originality, significance, quality, and clarity.

Authors may choose between a presentation during one of the 4 track sessions. Short papers will be published in a post-conference proceedings Springer book. Selected abstracts that are presented at the conference will be invited to be considered as chapters or extended papers in Special Issues (to be announced).

Attendance is free of charge but you have to register.
